

SEQUENCE

The new buffet concept · Innovative, versatile, unique

Boredom is a thing of the past.
Today belongs to SEQUENCE.

The tasteful art of service has a new name: SEQUENCE – the innovative buffet concept with unusual lines that is beautifully simple to use.

With this around 40 pieces collection, HEPP is setting new standards in culinary presentation. The system is available in various dimensions, asymmetric forms, and material combinations, such as wood, porcelain, stainless steel, fabric, Corian and plastic – this array of harmoniously matched pieces means your creativity knows no bounds.

An exquisite highlight for your guests!

START EVERY DAY IN STYLE

GN 1/1 blends seamlessly into the system as two M frames combined together create the required GN1/1 size.

Frames M, S and XS combine seamlessly and create a harmonious look.

A modular buffet concept that offers a multitude of combination and expansion options.

Say goodbye to boring buffets: Satisfy your creative appetite with SEQUENCE and bring something new to the table every day. Whether you're having breakfast, lunch, afternoon tea or an evening dinner – the wide range of perfectly coordinated modules allows you to put together stylish and sophisticated centrepieces. As you would expect, you can also combine these modules with chafing dishes to create a mixed hot and cold buffet. The SEQUENCE collection has something for every occasion, from ice buckets to keep dishes reliably chilled to fabric inserts for bread baskets to ensure that your baked specialities always look their best. The only thing left for you to do is get creative!

The ice tray is available in various sizes – cooled using crushed ice or cooling batteries.

TAKING CENTRE STAGE WITH STYLE

When combined with frames M and S, frame L creates a square (the same applies to frame M in combination with S and XS), thereby re-establishing symmetry.

As varied as your lunch buffet.

In temptation's way ... A buffet presented with SEQUENCE catches the eye and stimulates the palate. The striking shapes of the intelligent buffet concept and the multitude of ways in which the pieces can be arranged set entirely new benchmarks in food presentation. The innovative combination of trapezoid modules will channel a great sense of energy through your dining and reception rooms. As you would expect, all the individual items in the range are coordinated, which gives your staff great creative freedom when designing and combining table settings. The SEQUENCE collection will make your buffets and dinners an unforgettable experience!

Breadbasket with fabric insert available in sizes L, M, S can be hung in the respective 70 or 100 mm frames.
