"Skyline" - Manhattan-Feeling on the buffet

"Skyline", Zieher's buffet system, allows a maximum of flexibility for most exclusive buffet presentations. Different heights enable you to install big buffet platters on the one hand - on the other hand they can be stabilised by insertion into the corresponding serration. The square columns are made of highly-polished stainless steel and due to the standardised serration heights they can be combined with the "Squareline" (pages 13 to 17) and "Curve" series (pages 18 and 19).

The spectacular look that brings the silhouette of skyscrapers to mind, is available in a highly polished version and for an intensified effect also in golden and copper versions (page 9) as well as in black and white colouring (page 8). The optionally available Zieher LED-lights are a perfect addition to the system and come in 2 versions: cabled and rechargeable (pages 38 and 39). In combination with light-diffusing tubes (page 38), they provide a perfect illumination of the system in various colours.

The buffet platters are available on page 56.

Cabled and rechargeable, battery-powered LED-lights are available on pages 38 and 39.

"Skyline" made by Zieher - Compare the original to copies of inferior quality!

Reasons to stick with the original:

- Different versions: polished, golden and copper, matt black and white
- Highest Zieher quality and perfect accuracy in manufacturing
- Compatibility with other Zieher items
- 100 % fitting illumination
- Basis of massive stainless steel 18/10
- Designed by Zieher in 2009

DESIGN by ZIEHER

"Squareline"

The "Skyline" buffet system allows a maximum of flexibility for most exclusive buffet presentations.

Due to the same serration heights, the "Skyline" system is combinable with our "Squareline" system (pages 13 to 17) and "Curve" (pages 18 and 19). The different adaptors of the "Squareline" system may equally be used with the "Skyline" stands (exeption: columns with 58 cm height).

Please note: If the walnut adaptor (item 4736) is combined with "Skyline", the display cannot be illuminated, due to constructional reasons.

Some exemplary displays can be seen here:

12

"Skyline" black, connector piece acrylic glass satined (page 16), platter grey glass (page 61), acrylic glass tubes (page 8), rechargeable LED-light (page 39).

"Skyline" white, walnut connector piece (page 16), walnut tray (page 110).

"Skyline" highly polished, connector piece acrylic glass black (page 16), platter black glass (page 58), acrylic glass tubes (page 8), rechargeable LED-light (page 39).
