"Fakir"

“Roots, Matrix & Fakir” - Brass all of a piece!

Massive brass produced in traditional sand casting creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination. Opposing in form and shape but still belonging together these bowls “Roots” and “Matrix” as well as the exceptional displays of the “Fakir” series add up to a harmonic overall composition.

The bowl “Roots”, a tight web of rootlike structures, and “Matrix”, strictly geometrically constructed of hexagons, could hardly be more opposing. Especially this aspect makes the combination of the two so interesting. Besides the presentation of bread and fruit on the buffet these bowls fascinate as sculptures, too. A perfect add-on to the “Fakir” bowls are round glass platters of the Zieher product range. These can be laid on easily and generate thus the option to use the impressive objects on both sides.

All items are golden-coloured and partially dark patinated, further discolouration or oxidation is prevented reliably by the food-safe sealing of the golden parts.
