... attractively presented!

"Solid"

The presentation of bread is not only important at the table but at the breakfast buffet, too. The variety of baked goods wants to be put in the limelight.

Oblique displays for wooden trays allow for a clear arrangement of various types of bread. The display for two trays is being complemented by a shorter version which offers room for one tray. With the help of a connector piece, two of these tray displays may be stacked and used on top of each other - the ideal solution for small buffet tables. A fitting cutting board including a crumb drawer and an exchangeable grate, a cutting board made of end grain wood as well as various bridges (to be found on pages 108 and 109) complete the series and provide the healthy and diversified breakfast with a new look.

Suitable miniatures with size 5 x 5 cm or 7 x 7 cm are available on pages 256, 257 and 258.

Besides the already known bread tray you can also find a deeper version of that tray that is suited especially for the presentation of rolls, buns, biscuits and pastries. A removable grate provides air circulation, freshly baked buns remain scrumptious longer. Two kinds of divisions (for the tray) offer space for several miniatures (pages 256, 257 and 258) and allow for a flexible use of the system. A cutlery insert for the deep tray as well as an insert for slices of toasted bread round off the range.

Wood from the European walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the wood's warm brown colours in different shades and its intensive and distinctive grain make every product a unique item!

More items of the "Solid" walnut series are available on pages 238 to 248. Not dishwasher-safe. Please note the attached care instructions.

# "Solid"

## Show cooking is a popular trend!

Whether using it for catering, at events or at the hotel's own buffet, the solid wood cutting boards by Zieher are pleasing eyecatchers and offer high functionality. The matching bridges can be equipped with bowls, putting everything tidily within reach for the work behind the buffet.

The dimensions of both, cutting boards and bridges, have been chosen in such a way that exactly two boards and two bridges would fit into a regular transportation box. This is extremely useful when it comes to storing the items for their daily use and transportation for catering purposes.

"Solid" is entirely made of walnut, the probably most beautiful and most stylish of the European woods.

More items from this series can be found on pages 238 to 248.

The Zieher cutting boards are oiled. The use of the cutting boards naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wooden kitchen countertops to refresh the surface.

The removable grate for the bread cutting board (item 4733) can be ordered separately as a spare part (item 4733.R). The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed care instructions.

The bread basket is available on page 245.

Each cloche on this page is handblown and handcrafted. In contrast to our cloches made of borosilicate glass (page 113), these items are made of a massive glass drop. As a result there can be air inclusions and minor streaks which cannot be avoided. Each cloche is individual, the result is a harmonic enlivenment of the buffet for an attractive price.

More cloches made of glass and china are available on pages 183 to 190.

More cloches in different sizes (Ø 5 cm to Ø 30 cm) are available on pages 185 to 189.

Cloches made of borosilicate glass are heat resistant, dishwasher safe and very easy to handle for the guests. The main features of this material are a great resistance against heat and changes in temperature as well as a high breakage resistance. Each item is manufactured by hand and therefore shaped individually.
