

The glass stands with a suitable cloche are available on page 190, the "Petit Chef" miniatures are available on pages 205 to 237.

The buffet bridges and trays of the "Podia" series offer several advantages!

They are light but robust, flexibly usable and can be stored in a space-saving way.

With its use as display on the buffet, during coffee break or as a platter for fruit or little somethings in the hotel room - "Podia" offers multiple possibilities for use and flexible handling.

Three trays in GN formats (1/2, 1/3 and 2/8) are especially suitable for different miniatures made of porcelain and glass; anti-slip silicone coasters in different styles (page 206) guarantee a good grip during service.

All parts of this series consist of form-glued authentic wood veneer, the bridges are available in two types of wood.

The light version harmonizes very well with mundane but also with rustic-style furnishing, the version with the black-brown stripes appears exotic and modern.
